Gyproc® Habito®

Practical space saving family solutions for your home.

Everybody wants to feel good at home.

People who want to stay in the same home for many years, need innovative building solutions to be able to change the design of their rooms whenever they want.

Habito® – New wall solutions for lifetime lasting homes.

Habito® is engineered to support the way you live. The secret of its effectiveness lies in its innovative board technology which provides a considerably enhanced performance compared with standard plasterboard. Habito® gives homeowners the freedom to make walls their own, installing or removing fixing depending on their own needs.
